

Cincinnati Fall Festival.

Col. C. C. Bragg, one of Cincinnati's men of wealth and influence has complimented the city of his residence and the directors of the Fall Festival Association by presenting them for display in the exposition department some 300 signal flags of the Government Coast Service. They represent the entire series of devices used in Uncle Sam's big Navy Department. The display will be a treat to the people of the Central States, as a series of these signals are seldom seen in an inland exhibition.

Col. Bragg is the owner of the handsome yachts that ply the high seas. He will also decorate a magnificent vehicle to have a place in the Flower Parade of Friday September 21.

Cincinnati is the mother of shoe-making industries. It is interesting to note that one of her largest concerns is fitting up, in Exposition Hall, at Fall Festival Headquarters, a complete shoemaking plant; they will make hundreds of pairs of this most useful adjunct of man and woman's dress, in full view of the spectator. The Festival opens on Sept. 19 and closes on the 25th.

Directors of the Cincinnati Fall Festival Association have established a precedent in the matter of passes. An iron clad agreement has been signed by every member of the Directory, who are all prominent men of affairs, that absolutely no free admission shall be issued save to the Press. Each Director, from President Braunstein down, will pay his way every time he enters the gates of the Exposition, Plaza or Music Hall. This order has been given and is to be rigidly enforced.

The Bullock Electric Manufacturing Co., of Cincinnati is to place in the great lobby of Music Hall at Fall Festival Headquarters an immense revolving globe lighted and impelled by electricity. It will be a counterpart of the display made in the recent Electrical Exposition in New York City. The Bullock Co., made the generators which drove the machinery in both the Vincennes and Champs de Mars sections of the Paris Exposition and some features of the Parisian display are expected to be installed in the Cincinnati Exposition.

It will require three men twelve hours to erect the great amphitheatre on the big stage of Music Hall in Cincinnati where will be seated the 1,100 singers in the combined choir—a feature of the Sacred Concert of the Fall Festival which begins Sept. 19 in the Queen City. The concert is to be given on the evening of Sunday Sept. 23. A half dozen soloists of international renown will sing, and the Cincinnati orchestra of fifty musicians will assist. The great organ will also be used.

EASE AND DISEASE

A Short Lesson on the Meaning of a Familiar Word.

Disease is the opposite of ease. Webster defines disease as "lack of ease, uneasiness, trouble, vexation, disquiet." It is a condition due to some derangement of the physical organism. A vast majority of the "dis-ease" from which people suffer is due to impure blood. Disease of this kind is cured by Hood's Sarsaparilla which purifies, enriches and vitalizes the blood. Hood's Sarsaparilla cures scurvy, salt rheum, pimples and all eruptions. It tones the stomach and creates a good appetite, and it gives vigor and vitality to the whole body. It reverses the condition of things, giving health, comfort and "ease" in place of "disease."

WHY IS HE FOR BRYAN.

Imperialism, Declares Cockran, is the Only Issue of the Campaign.

Mr. Bourke Cockran, who refused in 1896 to support Bryan because of his advocacy of free silver, but who has announced his intention of voting for Bryan next November, has written a letter to Stephen P. Anderson, who asked for his reasons for supporting the Democratic ticket.

Mr. Cockran declares that his convictions on the money question remain absolutely unchanged, and that if he believed that issue were before the people now for settlement he would do as he did four years ago. In this letter he says in part:

"The money question cannot be an issue in this campaign because it cannot be effected by the result. The complexion of the Senate is such that whether Mr. McKinley or Mr. Bryan be elected the Democrats will be without power and the Republicans will be without disposition to disturb the existing standard, at least during the next Congress.

"Imperialism is the only question that can be settled by the pending election. It is, therefore, not merely the paramount, but the sole issue of the campaign. That being so, declarations by the Democratic Convention of beliefs concerning other matters are about as important as the members on the laws governing the movements of the tides.

Mr. Bryan's Sincerity.

"Your apprehension that Mr. Bryan, if elected, would defeat the operation of the Gold-Standard law by perverting its provisions is utterly inconsistent with the sincerity and honesty for which you give him credit. Mr. Gage's far-fetched prognostications of possibilities prove nothing except that the looseness which characterizes the language of the Gold-Standard law was not the result of accident but of a deliberate Republican design to preserve uncertainty about the money question for service as a political scarecrow during this campaign. In this program of perfidy, however, the personal character of Mr. Bryan seems to have been overlooked. If Mr. Bryan be sincere, as you and I believe him to be, he must be incapable of evading any duty, and the enforcement of every law according to its true meaning would be a duty imposed upon him by his oath of office.

"I do not share your fear that Mr. Bryan's election will disturb business conditions or that it involves the slightest danger of panic. I think it can be demonstrated that disaster to our prosperity lies not in the election of Mr. Bryan but in the success of Mr. McKinley. Imperialism, involving high military operations, extravagant appropriations and civic corruptions, the diversion of capital from the profitable employments of industry to the destructive employments of war, the withdrawal of the flower of our youth from the fields of productive labor to the demoralizing idleness of barracks life, must necessarily operate to restrict the productive energies of the nation, and a restriction of production inevitably produces not a temporary disturbance from which recovery, however slow, is always certain, but a commercial decay permanent, progressive and irremediable."

Sums For Little Boys.

1. It costs \$5,000 a year to maintain the harem of the Sultan of Sulu, according to McKinley's treaty with the Sultan. At one cent a bottle, how many bottles of medicine will have to be taxed to raise this amount each year?

2. Slavery was abolished in the United States by Abraham Lincoln in 1863 and reinstated in the Sulu colony by Wm. McKinley in 1898. How long was the entire territory of the United States free from the institution of Slavery?

Any reliable druggist will tell you that Grove's is the Original and that all other so-called Tasteless Chill Tonics are imitations.
